

## Michael David Robinson

[sonicisreal.github.io](https://sonicisreal.github.io) • 404-354-9991 • [mrobi109@gmail.com](mailto:mrobi109@gmail.com)

### Education

---

University of Georgia, Bachelor of Science in Computer Science, GPA: 3.4  
Courses: Introduction to Computing and Programming, Software Development, Systems Programming, Data Structures, Algorithms, Computer Architecture, Operating Systems, Network Programming.

### Skills

---

- Programming Languages: Java, C, C++, Python, Rust, HTML, CSS, JavaScript
- Frameworks / Libraries: Node.js, React
- Databases: MongoDB, MySQL
- Software: Git, VS Code, Eclipse, mobaXterm, Emacs, IntelliJ, WebStorm, PyCharm

### Experience

---

|                                                       |                 |
|-------------------------------------------------------|-----------------|
| IT & Personal Assistant for Asset Living              | 05/2025-present |
| Online Retail Manager for T&G Allsports               | 01/2022-11/2024 |
| Custom Apparel Designer for T&G Allsports             | 11/2021-05/2022 |
| Amazon Fulfillment Center Quality Assurance Associate | 08/2021-11/2021 |

### Projects

---

#### AI Chess Analysis Tool | React, Node.js, TypeScript

- Built a web application integrating the OpenAI API and Lichess API to deliver personalized chess coaching
- Processed game data from Lichess to generate AI-driven feedback tailored to individual player performance

#### Mock Payment Processor Service | Java, PostgreSQL, Docker

- Developed a RESTful credit card payment processing service supporting payment submission, transaction management, and refund handling
- Containerized the application with Docker and backed by a PostgreSQL database for reliable transaction persistence

#### Fitness Tracker | TypeScript, Next.js, Tailwind CSS

- Designed and built a personalized fitness tracking application with a responsive UI using Next.js and Tailwind CSS
- Leveraged TypeScript throughout for type-safe data handling across the full stack
